

Bringing the sounds of Austria to the Alaska Alps!

While traveling in the Tyrolean Capital of Innsbruck I picked up a brass bell from the Grassmayr Foundry that's been casting bells for Europe since 1599! I thought it was time for Alaska to have one of its very own.

The Bell and iron work is Grassmayr's, the rustic woodwork to hold it all in place is mine (pine 4x4s and 2x4s).

Let the music of Tyrol
be heard in the Alaskan
Alps!
